### **About GlyTech**

GlyTech is a world leader in glycotecnology, having established the large-scale manufacturing process for highly purified and characterized human type N-glycans as well as the chemical synthesis of glycosylated compounds, especially glycopeptides and glycoproteins. GlyTech’s technologies can contribute to developing better and lower-cost biopharmaceuticals. GlyTech expects to play a significant role in developing bio-betters, biosimilars, and innovative biopharmaceutical products.
